**MR. TOM WHEELER, CHAIRMAN**

**WAPA RADIO-(680) SYNCRONIZING BOOSTERS FOR ARECIBO, AGUADILLA,  
MAYAGÜEZ, COMMONWEALTH OF PUERTO RICO-USA**

Gentlemen,

This letter is to recommend on behalf of the residents of Puerto Rico, especially those living on the western section of our island such as Arecibo, Hatillo, Camuy, Quebradillas, Isabella, Aguadilla, Moca, Mayagüez, Aguada, Añasco, Hormigueros, Cabo Rojo, San Germán, Sábana Grande, Maricao, Las Marías, Lares, etc., These towns now receive the WAPA Radio signal through Synchronized Boosters as permitted by your Commission for many years past (over 10).

As we have learned, your commission has ordered that those synchronized boosters be turned off by the month of May 7, 2017, leaving those residents on that region of Puerto Rico without the very good signal of WAPA RADIO that transmits from San Juan, PR-USA on the AM 680 Band.

We would like to recommend on behalf a of all those in that region that the Synchronized Boosters be left **"ON"** transmitting the signal of this WAPA RADIO for the benefit of the residents of this region of the island as it has been transmitting during the past over 10 years.

Please understand the need of these people. Thanks for your help on this very important matter affecting us.

Cordially Yours,

  
Rafael Prieto, AIA, PE  
Architect & Professional Engineer
